

COMPLETE LYRICS - "LET US PLAY"

©2019 by TEA CUP GIN

Maybe its an old cliché
To say Rome wasn't built in a day
Put us in the arena, not above the fray
Our sound and fury is on that stage

To be the change you wanna see
Add your thread to the tapestry
You could be the truth that will set us free
Hear the congregation say...

Let us play, Let us play
Let us play, Let us play
You know tomorrow starts today
Here's to those who paved the way
Now it's time to seize the day
So c'mon and let us play

Esprit de corps transcends the field
Passion cannot be concealed
Our potential is revealed
Now we found our way

To peacefully protest their plight
Yalies had to strip for their rights
Title IX hiding in plain sight
With a message clear as day....

Let us play, Let us play
Let us play, Let us play
Hear our communiqué
égalité, sororité
On this commencement day
It's time to let us play

(solos)

Pinkney Pirates took the stage
Wahine were making waves
A generation comes of age
As Sandler points the way

Finally we're gaining ground
As Dr. Murray would expound
She lived to see her lost cause found
We made so much headway...

Let us play, Let us play
Let us play, Let us play
For all the debts we can't repay
As we take the field today
They gave us this right of way
So c'mon and let us...
C'mon and let us...
It's time to let us play
